ROLLER FLOUR MILL MACHINERY

M45709101N

Roller Mill

Lt. S. Kartar Singh "Miller"

S. Jagdev Singh

Company Profile

It is needless to mention here that some time ago the 'milling engineer' had been a quarryman. In case you happen to the old milestone grit quarries abroad one can see half-finished Millstone lying where they were abandoned.

But the nineteenth century saw the beginning of a new, more technical approach to milling. One of the key names now in India in the scientific transformation of flour milling industry has been 'K Sons'.

'K Sons' Machines and system are equally at home in large mills and in small mills, in new mills and remodels, with new plant or existing machinery. Our motto is to provide every assistance to develop these mills, under reference, especially in the milling industry.

Our 'K Sons' Machines are fully equipped with the latest designs and techniques and all the methods and production facilities are described in this catalogue and feel confident that you find the same to your liking in every sphere.

Our 'K Sons' Machines are now being patronized all over the country as well as abroad and a chance from our worthy customers like of your's shall enable us to prove our worth
